DAIHEN TRAINING FACILITY AX/AII OPTIONS COURSE DESCRIPTION

The *AX/AII Options Class* is designed for Daihen customers who have completed the AX/AII Basic Programming class and have purchased options for their robotic system(s).

Upon successful completion of this course, students will have knowledge and understanding of the following:

- Basic programming overview
- Synchro-Motion Control
- Multi Unit principals and groupings
- External Axis Shift
- Endless Rotation
- Software Compliance (As needed, material handling specific)
- Auto Calibration
- Touch Sensing
- Cross Mastering

In addition to classroom lectures and discussions, there will be “hands-on” time for students to perform assembly/disassembly procedures as well as exercises in troubleshooting and repair.
